ORACLE NETSUITE

REAL ESTATE MANAGEMENT

Purpose-built solution for property managers to gain real-time insights about their properties, tenants, accounting, and financials, powered by NetSuite.

Why Real Estate Management with NetSuite is Your Best Choice?

Scale your real estate business by leveraging the power of NetSuite to seamlessly sync your financial transactions, in-depth business analysis, and real-time reporting in a single place using Folio3's Real Estate Management Solution.

Powered by NetSuite

Powerful property management workflows to save you time and money.

Zero Complexity

It's simple. It's proven. It's cost-effective. It just works!

Fully Secure

An end-to-end encrypted platform that makes your data fully secure.

Access Anywhere

Work from anywhere, anytime. Get instant access to all information.

BENEFITS YOU GET FROM OUR REAL ESTATE SOLUTION

Our solution is fully customizable and can be easily tailored to your business requirements. With Folio3's Real Estate Solution, you will get

-  Access to Premium insights and business intelligence
-  Powerful property management workflows which save you time and money
-  Advanced property management, sales, and commercial accounting features
-  An app for your tenants to manage maintenance and rent payments
-  24/7 access to property-related information, anywhere anytime via NetSuite

FEATURES

Folio3's All-in-one Property Management Solution sets you up for success.

Financial & Account management

Link all the property management transactions to your accounting books for in-depth and accurate financial reporting

Live Dashboards

Rich dashboards to analyze contracts, tenants, property, and income statuses

Lead to Tenant Cycle

Easily track and manage the tenant lifecycle from identifying opportunities to contract preparation.

Contract Management

Manage contracts' formulations, renewals, cancellations, and approvals in just a few clicks.

Property Management

Create properties/units and define features in NetSuite. Eg: property address property type, pictures, etc

Facility Management

Real-time tracking of Maintenance services requests related to any property within the contract
