NEXT GENERATION MILLIMETERWAVE COMPONENTS

Working with Folio3 for over a year now and they're the best group that Eravant has contracted for work. Very responsive and all our issues got resolved/responded to; never had to request follow-ups or send reminders on any open task. Work was very high quality and after enough time together, we felt that Folio3 really understood our company's needs on a personal level. We greatly appreciate the high level of technical expertise provided by Folio3 for both NetSuite and general web development.

Thank you for your dedication and focus on Hatchery's integration project with NetSuite. My initial trepidation of working with an offshore company was quickly dispelled in our first call last month. Since then you have been knowledgeable and engaging with our project. We still need to carry the ball across the finish line, but I'm confident that we will get there ahead of schedule and at/under budget.
