

Momentis vs. NetSuite + NStitch: A detailed comparison

What Is Momentis?

Momentis by Aptean is an end-to-end ERP solution specifically designed for fashion apparel wholesalers, importers, manufacturers, and brands.

What Does NetSuite For AFA Mean?

NetSuite for AFA is a SuiteSuccess edition of the widely used NetSuite ERP system, tailored to simplify apparel and footwear businesses of various sizes.

NStitch Overview

NStitch is a custom-tailored solution built on NetSuite, focused specifically on simplifying and unifying apparel manufacturing processes.

Momentis

- Leverages NetSuite's robust ERP platform with fashion-specific customizations
- Supplements with NStitch's specialized manufacturing capabilities
- Benefits from NetSuite's widespread use across industries and continuous platform development

Core ERP Functionality

NetSuite + NStitch

- Leverages NetSuite's robust ERP platform with fashion-specific customizations
- Supplements with NStitch's specialized manufacturing capabilities
- Benefits from NetSuite's widespread use across industries and continuous platform development

Manufacturing Process Management

- Contains sourcing and logistics capabilities
- Less detailed information available about manufacturing process tracking

- NStitch specifically designed for apparel manufacturing processes
-
- Tracks every production step in detail (cutting, stitching, embroidery, finishing)
-
- Explicitly supports Cut Make Trim (CMT) capabilities
-
- Manages both in-house and outsourced production

Inventory Management

- Fashion-focused inventory management
- Integrates with warehouse systems

- Size-color-style matrix for detailed inventory control
- Material consumption tracking by NStitch
- Lot control capabilities

Momentis

- Strong integration with e-commerce platforms, EDI, 3PL systems
- Automatic updates of product content, images, inventory, and pricing

Integration Capabilities

- Real-time data accessible anywhere
- User-friendly dashboards
- Analysis of inventory, finance, and other metrics

Business Intelligence & Analytics

- Integrates with multiple sales channels
- Supports various business models

Multi-Channel Operations

- Financial management module
- Business intelligence for financial metrics

Cost Management

NetSuite + NStitch

- NetSuite's extensive integration ecosystem
- SuiteCommerce for integrated e-commerce
- NStitch built directly on NetSuite for seamless manufacturing integration

- NetSuite's SuiteAnalytics platform
- NStitch's manufacturing-specific reports (CUT tickets, cost analysis)
- Forecasting tools and trend analysis

- Synchronizes inventory, orders, and customer data across channels
- B2B portals with wholesale-specific features
- Unified commerce approach

- NetSuite's comprehensive financial management
- NStitch's detailed production cost tracking (labor, overhead, materials)
- Total landed cost calculations
